The Payroll Savings Plan helps you save some of your living for later.

Sure there are lots of things you want right now. Lots of things you need.

But, the sun's going to shine tomorrow, too. That's why it's important you do something today to build a little nest egg for the future. And there's no easier way to do that than by joining the Payroll Savings Plan where you work. You sign up once and any amount you specify will be set aside from each paycheck and used to buy U.S. Savings Bonds.

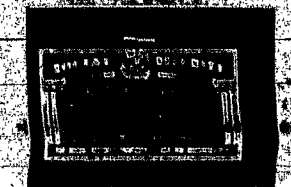

The Payroll Savings Plan. The perfect way to help your good life stay that way.

Now U.S. Bonds pay 4 1/2% interest when held to maturity of 8 years, 10 months (4 1/2% the first year). Bonds are redeemable if lost, stolen, or destroyed. When needed they can be cashed at your bank. Interest is not subject to state or local income taxes, and federal tax may be deferred until redemption.

Take stock in America. Join the Payroll Savings Plan.

Questions and Answers

Q. I work part time as a waitress at a supper club. I collect all the tips at the tables I serve, and later I share them with the bus boys working my tables. Do I report all these tips for social security?

A. You must give your employer a written report of your tips within 10 days after the month you receive them when they amount to \$20 or more for a month. Report only the amount you keep yourself. The other employees should also report their tips to the employer if they amount to \$20 or more in a month.

Q. I recently moved here and I noticed my social security number is a lot different from the numbers of my co-workers at the office. Should I get a new number in this area?

A. No. Your social security number never changes. You should use the same number all your life no matter where you live.

Q. I will retire next year.

When I was looking over my birth certificate, I found that it does not show my first name. What should I do?

A. You should take the certificate to any social security office and discuss the problem. The social security representative may be able to assist you in confirming that the certificate pertains to you.

Q. As a disabled Vietnam veteran, I get benefits from the Veterans Administration based on a 60 percent disability. Could I also get monthly social security checks on my disability?

A. We can't give you a definite answer without knowing more about your case because the social security disability program doesn't work the same way as the VA's. Social security pays benefits to insured workers who are so severely disabled that they can't work for a year or more. Contact any social security office and ask for disability insurance benefits to get a detailed answer for your particular case.

NOTICE

The Federal Communications Commission has designated for evidentiary hearing the mutually exclusive applications of Michael D. Haas (requests: 1140 kc, Bay-St. Louis, Mississippi), Robert Barber, Jr., George Sieman and F. M. Smith, d/b as Gulf Broadcasting Company (requests: 1130 kc, Gulfport, Mississippi) and HWH Corporation (requests: 1140 kc, McComb, Mississippi). The hearing is scheduled to begin at 10:00 AM on June 1, 1972, at the Commission's offices in Washington, D. C. The hearing will determine the following issues:

1. To determine the areas and populations which would receive primary service from the proposed operation and the availability of other primary aural (1 mv/m) or greater in the case of FM service to such areas and populations.
2. To determine whether the staff proposed by Michael D. Haas is adequate to effectuate his proposal.
3. To determine whether Gulf Broadcasting Company has complied with the provisions of Section 1.65 of the Commission's Rules by keeping the Commission advised of

substantial and significant changes as required by Section 1.65, and if not, the effect of such non-compliance on its basic or comparative qualifications to be a Commission licensee.

4. To determine, in the light of Section 307(b) of the Communications Act of 1934, as amended, which of the proposals would best provide a fair, efficient and equitable distribution of radio service.

5. To determine, in the event that it is concluded that a choice between the applications should not be based solely on considerations relating to Section 307(b), which of the operations proposed in Bay-St. Louis and Gulfport would, on a comparative basis, better serve the public interest.

6. To determine, in the light of the evidence adduced pursuant to the foregoing issues, which, if any, of the applications should be granted.

A copy of the application and related material of Michael D. Haas is available for public inspection during normal business hours at the offices of Michael D. Haas, 123 Court Street, Bay-St. Louis, Mississippi.

HARDLY A BIRD'S EYE VIEW—this aerial photograph of the Bay St. Louis-Pass Christian area was taken from 60,000 feet by an Air Force RB57F aircraft, used by the Earth Resources Laboratory at NASA-MTF. The amazing clarity of detail in the photograph illustrates the sensitivity of the instruments used. The white-ringed

rectangle at the lower left corner between Highway 90 and the railroad is the Bay St. Louis oxidation pond; Diamondhead and the I-10 Interchange can be seen upper left corner; the community of DeLisle at top right.

before going on to other and broader areas of research. All data and studies of each county will be first made available to local agencies concerned with land-use and resource development, to facilitate their knowledge of techniques application.

ERL ORGANIZATION
The Earth Resources Laboratory organization consists of 100 persons, 70 of whom live in Piquette and Sildell. The rest are residents of Bay St. Louis, Waveland, Pass Christian, Long Beach and other areas. The average yearly payroll for ERL at the test site runs to \$1.2 million.

Heading the organization is Robert Piland, director. Key personnel in the three divisions include D. W. Mooneyhan, chief of land remote sensing applications, E. L. Tilton III, chief of sea remote sensing applications, and S. L. Whitely, data acquisition and

management. The MTF laboratory is a division of the Manned Spacecraft Center, Houston, Texas. Far from being a temporary pilot effort, ERL is programmed as a permanent research facility with expected expansion over the next few years. This operation can provide local governments with a superb bank of information for unlimited environmental control and development, if they choose to take advantage of the opportunity. (Subsequent articles will deal with aircraft and remote sensing instruments used in research, and specific data correlations of the land and sea applications divisions.)

GARDEN BOARD
Bay-Waveland Garden Club Board will meet at 2 p.m. Monday, April 10 at the Garden Center with Mrs. W. F. Phillips and Mrs. J. H. Duggan as hostesses.

Center To Furnish Recycling Barrels

The Neighborhood Ecology Center will have recycling barrels for Bay St. Louis within the week. The green and white barrels will be located in front of the Diacom Foot Center and the T.G. & Y. Family Center. There will be two barrels in each area labeled "CLEAN," clear and colored glass and the other labeled for "CLEAN," flattened aluminum and tin cans.

Also, old newspapers are being recycled by St. Augustine Seminary and should be brought to their "Paper Shed" on Ruella Street.

Businessmen in the area have been most helpful with the recycling campaign. Supervisor Oscar Peterson donated the barrels used in this project and Mary Carter Paints, Maufrey Hardware and Dave McDonald, Inc. donated the paint used on the barrels.

Anyone who is interested in participating in the Neighborhood Ecology Center's projects, or if you are just curious, come to the meeting on Wednesday, April 12th at 8 p.m. in the Gulf National Bank conference room, Bay St. Louis. There will be reports on the recycling program, the Mississippi Coastal Wetlands

Protection Act, the Earth Day Seminar and a speaker from a local ecology-minded organization.

This recycling campaign is one step we can take to aid in eliminating the large and useless amount of trash defacing our landscape. Through community recycling projects and with everyone's cooperation we will be able to reduce the \$4.5 billion the United States pays annually to "dispose" of the 3.5 billion tons of refuse. The N.E.C. hopes that citizens in the area will help by bringing their bottles and cans for the Center to put into reuse.

For any information on ecologically-oriented matters please call Mrs. Dan Edwards at 467-3519 or Wayne Ducomb, Jr. at 467-8010.

St. Stanislaus High School will hold its final "Open Classroom" session for the present school year on Sunday, April 9, 1972, from 2:00 to 4:00 p.m.

The purpose of the "Open Classroom" is to give parents a chance to talk to their son's teachers. Of special interest to the parents at this "Open Classroom" is that they may discuss with the teachers their son's schedule for next school year.

Commentary

by Susan Ivey

It's Tuesday night. Paul Newman, Carrie Snodgrass, Elizabeth Taylor and Michael Caine are starring in a TV premiere movie, but their ratings will have to suffer because this reporter is covering the city council meeting.

(For those who find Commentary already in progress, this is the second in a series of narratives relating the reporter's plight.)

There is absolutely no experience that can quite match the thrill—perhaps courage is a better term—of watching our city aldermen do their thing. Upon arriving at the council chambers, the first thing one can do is enter the agenda quiz. The object is to arrange the business for the night in the order in which one predicts it will be considered. The last quiz was won by a city hall secretary who had compiled the original agenda.

The next portion of the quiz is multiple choice to determine the fate of each matter. The choices are a) tabled for further consideration; b) referred to the appropriate committee or organization; or c) tabled in hopes it will go away. The reporter receives five points for every correct answer, but forfeits 10 points to the council when the business is transacted.

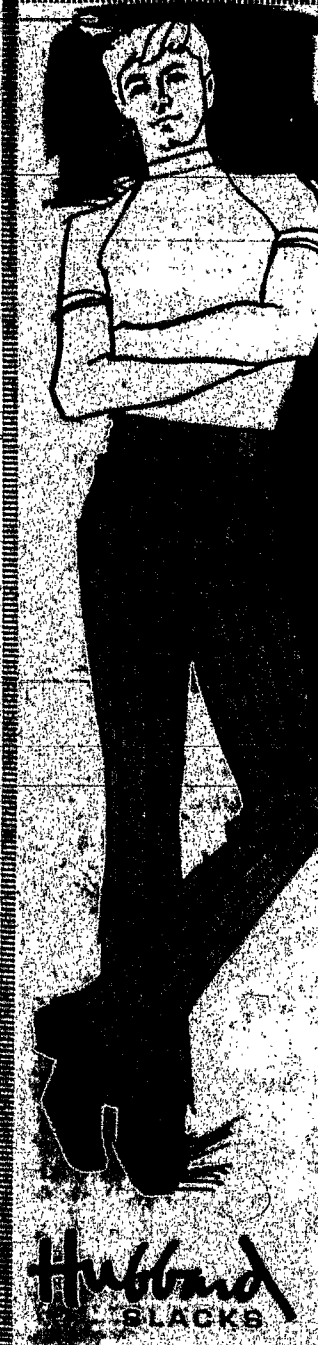

By far the most important thing a reporter picks up at a council meeting is a good, working knowledge of parliamentary procedure. It is not unusual to hear an alderman make a motion, deliver a five minute oratory supporting his conviction, and then vote against it. This is done especially during a controversial issue to throw the audience off guard and make the alderman a neutral hero.

During the lulls, the reporters from the various media make bets on whether Paul Newman ends up with Liz or Carrie. The stakes are usually pretty high as payments are not made until the movie is rerun in the summer. Newspaper reporters have never been a professional group to be disturbed by what the future holds.

When the time nears 9 p.m., there is usually a general stirring of frustration at the thought of missing Marcus Welby, M.D. The mayor, however, reminds the aldermen of their civic duty for their city, and the meeting resumes.

At 10 p.m. approaches, "recessed meeting" becomes a more popular term until finally every item on the agenda has been discussed. The aldermen shake hands with one another, distribute copies of impromptu speeches to the press and disappear into the night to ponder just exactly what they did.

Power Mower Maintenance

For The Guy Who Doesn't Know Or Want To

If you're the kind of guy who takes his power mower to a servicing dealer to have the height adjustment levers moved from 1 1/2" to 2", then you're beyond hope.

If you're one step above that, this article is for you. If you're an expert you're in even better shape. First, just apply the first rule of "police call." For those that don't know what "police call" is, it is cleaning up any given ground area by hand. Translated into mower maintenance, do the same with the area you're about to mow. You'll be surprised at how many damaged rotary blades, broken crankshafts and jammed reels this can eliminate. The result? Less costly maintenance.

The second rule of "police call" is to clean the mower. If it moves, lubricate it. That's right. Get yourself a can of household oil and start at the mower control levers. Give a squirt to every metal part that moves against every other metal part. This includes every screw, nut and bolt on the mower, and every place where the control wires attach to the engine, where the grass hook looks onto the mower deck, where the wheels rotate on the axle and where the axle attaches to the deck.

Get a cloth and wipe off all excess oil because that excess oil will attract dirt and grass clippings. If the oil you can't see after you put it on that's working for you. And that oil will keep those parts operating smoothly against each other and lessen the chance of serious trouble occurring because of jamming. Lubricating the screws, nuts and bolts protects them against rusting and jamming, when and if they have to be removed or tightened. They're certain to lower the tail at your servicing dealer because of the time he saves in dismantling the mower, when and if it is called for.

If you know how to use a screw driver, you'll be wise to start every season by tightening every screw on the mower you can reach. With a wrench do the same to bolts and nuts. This will keep your mower in line and limit the stress on it. It will also eliminate excessive vibration from loose parts. Vibration is a sure sign of trouble. It means screw and bolt holes are being widened by heading against the loose screws and bolts. This can lead to serious trouble and major service charges.

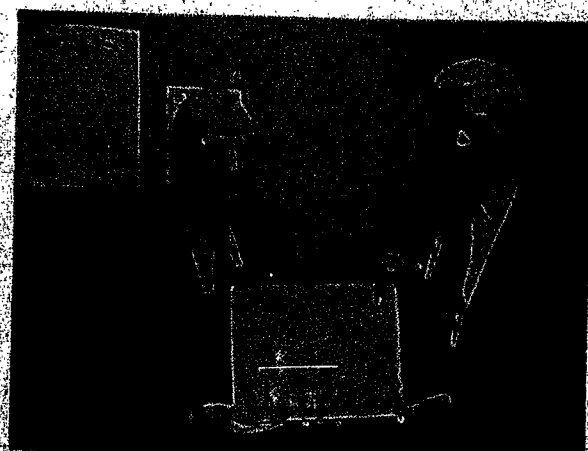

The engine maintenance should be left to a qualified servicing dealer. In fact, a good idea is to have your mower looked over by a servicing dealer either just before or just after the end of the mowing season.

You can and carburetor adjustments by such advances as the Autolase (TM) carburetor, which is featured at the Tecumseh dealer store and never has to be

adjusted again. It's programmed forever for fast sure first pull starts. In short, with nothing to adjust, it's an handy man's dream.

Tecumseh engines also have KLEENAIRE (TM) filters which have a snorkel intake that rises above dust and grass clippings to take in clean, centrally cleaned air from under the tri-oval housing. Here centrifugal action whips left-over dirt to the outside while the new pre-filtered air passes thru a double-thick oil saturated poly filter element. With the KLEENAIRE (TM) filter substantially reducing the chance of engine foul-out and by following the simple suggestions above, you can count on added years of mowing life and minimum dealer maintenance.

If you own a Tecumseh powered mower or you'd like more mower maintenance information on Tecumseh engines, featuring the KLEENAIRE (TM) filter and Auto-Magic (TM) carburetor writer, Tecumseh Products Company, Lauson Power Products Engineering Division, Gratiot, Wisconsin 53024, Attention: Advertising Department. Include your engine model and serial number for information referring to a specific engine.

Pictured above left is Joe A. Adams, Executive Vice President, Winn Dixie Food Stores, receiving a "Certificate of Appreciation" presented by John H. Buchanan of the U. S. Department of Agriculture, Commerce and Marine Affairs.

The plaque awarded Winn Dixie by the U. S. Department of Agriculture, Commerce and Marine Affairs in recognition of its participation in the Federal Government's Food Program. The program was designed to give assistance to agricultural products in larger-than-normal supply.

Sodality Holds Monthly Meeting

Sodality of Our Lady of St. Clare's Parish, Waveland, held their monthly meeting last Tuesday afternoon in Costello Hall.

Mrs. Marcus Eichhorn, prefect, conducted the business session while minutes of the previous meeting were presented by Mrs. Joseph Damien, recording secretary; Mrs. Adrien Chagnard, treasurer, gave her report. Others reporting were Mrs. Maurice Puchot, corresponding secretary, Mrs. E. N. Canady,

publicity chairman, Mrs. Henry Berry, entertainment committee chairman, and Mrs. William Faulkner, sewing chairman.

Mrs. Eichhorn discussed the kick-off dinner April 9 for St. Clare's Parish fair which will be held August 4, 5, and 6. Rt. Rev. Msgr. John Scanlon, pastor, spoke on Holy week and Easter Sunday services. Mrs. Warren Norton, new member, was welcomed by the group.

Monsignor Scanlon offered the closing prayer prior to the social hour for the 27 members attending.

FORESTRY BANK
The Mississippi Legislature, in 1960, enacted the first Forestry Bank Law in the United States. Under the program, the State makes long-term, low-interest loans up to \$1,500 for forestry development purposes. First loans under the new act were made in 1961. NOTICE OF TRUSTEE'S SALE OF LAND

WHEREAS, MERRILL J. BILLS and his wife, IRIS BILLS, executed a deed of trust dated the 5th day of March, 1971, recorded in Book 151, Pages 308-311 of the records in the office of the Chancery Clerk of Hancock County, Mississippi, to GEORGE E. MURPHY, Trustee, to secure the indebtedness therein described in favor of the Administrator of Veterans Affairs, an Officer of the United States; WHEREAS, default has been made and now exists in performance of agreements contained in said deed of trust, and the holder has declared the entire indebtedness to be due and payable and has requested the undersigned to execute the trust;

THEREFORE, pursuant to the provisions and authority of said deed of trust, and for the purpose of paying said indebtedness, the undersigned will, on April 10, 1972, within legal hours, at the front door of the County Courthouse of Hancock County, at Bay St. Louis,

BAY-WAVELAND Junior Auxiliary held Easter parties during March at all the area nursing homes. Tuesday, March 28th the patients at Gulf View were entertained at a Bingo party. An Easter cake, ice cream and punch were served. Thursday, March 30th, a party was held at St. Augustine Seminary. Refreshments were served and candy eggs were passed out by the residents at the County Home during their regular monthly visit.

Seminary Joins In Bay Cleanup

In conjunction with the Bay St. Louis beautification program, St. Augustine's Seminary is the process of beautifying their grounds in the hope the Seminary will enhance the beautiful scenery already present in Bay St. Louis.

Two particular interests are the creek which passes through their property and the pond bordering Ulman Avenue. In cleaning both the creek and the pond twice they have found such debris as shoes, socks, soft drink bottles and cans, bricks and paper thrown in by the many children who come over the property.

The Seminary would like to clean these two areas of the property so they can be enjoyed by all who come to visit. They are asking people to please help by instructing their children not to litter the pond or creek with debris. Some children bring nets, sacks, cans, bottles and other types of containers to catch minnows, tadpoles, crayfish, snakes, and fish to take home or start their own aquarium. They would like nothing taken from their pond or creek.

Your help in this project will be greatly appreciated. The community at St. Augustine's wishes to have the Seminary and all historic areas in Bay St. Louis reflect the deep interest of its citizens to KEEP BAY ST. LOUIS BEAUTIFUL.

Seminarists Coaching For Olympics

Divine Word seminarists are coaching students at the Lakeview School for Special Education, as they have in the past, in anticipation of the Special Olympics coming up this month in Gulfport.

The children participating will need shirts, sports and tennis shoes for the event and a spokesman for the Retarded Children's Association has said that donations to help equip the children will be gratefully received. Checks or money orders may be sent to Mrs. William Lamb, Assn. president, 634 N. Beach, Bay St. Louis.

Every Center student taking part in the Special Olympics the past two years has brought home at least one medal, and several students won two or three.

GARDEN MEETING. Mrs. Edward Thomson will be guest speaker at Bay-Waveland Garden Club's monthly meeting scheduled for 7 p.m. April 13, at the Garden Center.

Mrs. Thomson will use as her subject "Local and National Birds."

Guest Lecturer Visits Seminary

Reverend Thomas A. Krosnicki, S.V.D., was the recent guest lecturer at Divine Word Novitate, St. Augustine Seminary. Father Krosnicki recently returned from Italy where he pursued four years of post-graduate studies in liturgical theology. On February 9 he successfully defended his doctoral dissertation at the Pontifical Liturgical Institute, Rome. His dissertation, "The Postcommunion Prayers of the Missal of Paul VI," is the first major study on the recently published new Roman Missal. In January 1966, Father Krosnicki completed his seminary training at Divine Word Seminary, Techny, Ill., and was ordained by Bishop Harold Perry, S.V.D., Auxiliary Bishop of New Orleans. In addition to Rome, Father has studied at Loyola University, Chicago, and Catholic University of America, Washington, D. C.

Ben Stone speaks sincerely on the issues.

You have heard Ben Stone speak sincerely on the issues...employment...business opportunities...law and order...inflation...pollution...and the needed reforms in our welfare laws. Why? Because Ben Stone is concerned. Because Ben Stone examines both sides of the issues, makes judgements and speaks for you on the basis of those judgements. Ben Stone does it calmly. Ben Stone does it quietly. He does it without hedging. Ben Stone is a decisive man, a reasonable man, and today we cannot afford to have the 5th District represented in Congress by anyone less than that. Ben Stone realizes that no one can offer the experience that Congressman Colmer has earned for the 5th District over the past forty years, but Ben Stone offers youth and dedication in Congress to gain seniority and position; experience and ability gained through 5 years of leadership in the Mississippi Senate and as a practicing attorney; plus a sincere desire to personally serve each person in the 5th Congressional District. Look at the record. You know the kind of Congressman Ben Stone will be. Young and old back Ben Stone. Students and workers are involved with Ben Stone. The people of the 5th Congressional District trust Ben Stone. Why? Because Ben Stone does the job.
